

ALPACA COTTON BLEND IN POLAR BEAR

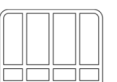

Code: 11120

Application: Upholstery, Curtains, Soft Furnishings

Composition: 60% Alpaca, 27% Cotton, 12% Wool, 1% PA

Woven from a rich blend of alpaca, cotton, and wool, Polar Bear is defined by its deeply textured bouclé surface - soft, tactile, and full of natural warmth. Fine alpaca and wool fibres form generous loops that give the fabric a surface alive with character and movement, while the compact cotton base provides quiet structure and stability (45,000 Martindale). This balance between softness and substance gives the fabric its enduring appeal: cocooning, composed and inviting.

With its generous texture and natural resilience, Polar Bear is well suited to upholstery and soft furnishings. Its tactile depth and plush hand bring both character and comfort

R

- a modern expression of bouclé's enduring charm, rendered in a pure white colourway that enhances its serene, sculptural quality.
