## CARAPACE INCENSE HOLDER

### DESCRIPTION

"Carapace" is a collection of lighting products—both flame-source and electric—drawn from the dual inspiration of antique candle reflectors and the form of a turtle's shell.

### MATERIALS

Cast Aluminium or Cast Bronze

As the production process involves the casting of objects in small batches, minor variances are expected between individual pieces. Variations associated with production may manifest as subtle pour ripples or surface pitting, imparting distinct characteristics to each item.

### DIMENSIONS

Width: 95mm (3.7")

Depth: 80mm (3.1")

Height: 190mm (7.5")

### WEIGHT

Aluminium = 0.3kg (0.7lbs)

Bronze = 0.7kg (1.6lbs)

### STANDARD FINISHES

Bronze - Aged Bronze (Waxed)

Aluminum - Brushed

### USE AND WARNINGS

This holder is designed to accommodate a single stick of Japanese style incense.

Please ensure the incense holder is placed on a flat, heat-safe surface.

Keep it away from anything that might catch fire, like curtains.

### PATINA AND CARE

The metal utilized in Carapace will develop oxidation over time due to age and environmental factors, both of which can contribute to the formation of a unique natural patina. Wipe the surface gently using a soft, damp cloth or a solution of mild detergent, and ensure thorough drying post-cleaning.
