

Shown in etched Suede Cast Glass shade, Andalusian Cast Mineral body, and Lucent frame

Esca Table Lamp No. 2 Petite Mixed Materials

Esca, derived from the Latin word for lure or bait, are the small luminescent organs at the tip of the dorsal ray of female anglerfish. This luminous anatomy acts as a lure to attract prey.

The Esca series expresses this underwater glow either through cast glass or skimming

The Esca Lamp No. 2 Petite shade and body halves are available in mixed materials (or all in the same), creating a broad palate for curation and light play.

Detail at right: shown in Moonscape Cast Mineral shade, Mink Cast Glass body, and Terra frame
