

River Side Table

Inspired by stones shaped and polished by ever-evolving bodies of water, the River Side Table presents a sculptural, asymmetrical form made up of soft curves and lines. The table is expertly made by hand-layering fiberglass and gel coat over several days, evoking a sense of fluidity on a solid form. An inset piece of marble or wood serves as a table surface and a complimentary pairing.

Available in an opaque black high gloss finish, matte black finish, or in a uniquely formulated cream finish combining both opaque and translucent movement. *Made by hand in Pennsylvania.*

River Side Table
