

PETITE WOLFE DISC

Named after one of the most distant rotating galaxies ever observed honoring the late astrophysicist Arthur M. Wolfe. Three accent shells orbit a central opening, as if attracted by a gravitational pull. In contrast with its counterpart the Wolfe Disc, the Petite Wolfe Disc appears weightless, yet creates a strong pool of ceiling light.

Petite Wolfe Disc

MATERIALS

Hand sculpted plaster
Knifed plaster finish

LAMPING

G9 sockets, 12 bulbs
5 Watt, Bi-pin LED bulbs, 2700K

CERTIFICATIONS

UL / CE

PENDANT OPTIONS:

Small: 36in DIA / 91.44cm DIA
Medium: 48in DIA / 121.92cm DIA
Large: 60in DIA / 152.40cm DIA

WEIGHT

Approx. 40 - 60lbs / 18.14 - 27.22kg

SUSPENSION

Hung with rope.
Chain incurs an upcharge.
Overall drop customizable.

CANOPY

Ø6in / 15.24cm

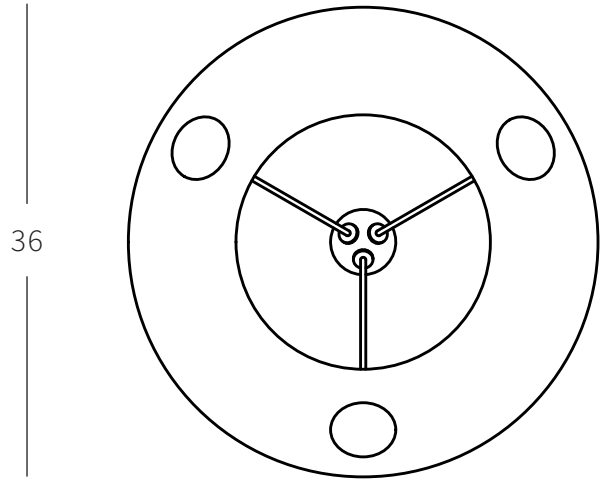

LEAD TIME

18-20 weeks

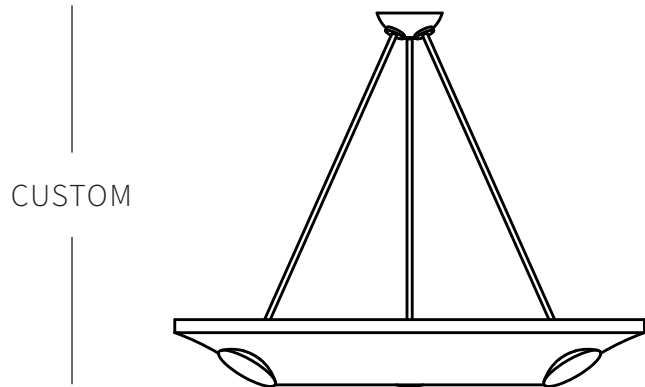

Custom diameters not available

FEATURES

Fully Dimmable
Shipped assembled
Flexible Overall drop
