

Refractory

Shown in Shale Glass

H. OKN.VES.01

Specifications

Dimensions	in	cm
Diameter :	39.4	15.5
Height :	6.5	16.5
Weight	25.2 lbs	
Materials	Finishes	
Cast Glass :	Bluff	
	Mink	
	Shale	
	Suede	

Okenite Bowl

The Okenite series draws from the nature of a geode whose exterior surface, upon splitting open, is quite distinct from what is discovered on the interior. The hand-polished lips of the vessels flow into vertical spines and hulls.

Generously scaled cast glass bowl with delicately sand-blasted interior and natural mold textured exterior. Flanked by axial spines that fade towards its base. Designed to stand freely or atop our cast bronze Canthus dish, available separately.

The monumental Okenite Bowl is cast glass with an etched interior and natural mold textured exterior. The lip and spine motifs are hand polished. Conceived to stand freely or atop the cast bronze Canthus Dish, available separately.
