## SPUN LAMP IN DARK BRONZE - US WIRING

£3,540

Code: 8251

RU EDITIONS

Finish: Dark Bronze

The Spun lamp is hand crafted using hot cast bronze via the sand-casting process. This creates an organic pitted texture that is then hand-finished and patinated. All elements combine to fashion a traditional, yet modern styled lamp of versatile elegance and character.

We recommend that this lamp be paired with our Large Tapered Drum with Diffuser in Antique White (9395).

US wiring: Suitable for US
